MutualAid eXchange Selects The Stingray System from Maximum Processing.

MutualAid eXchange selects the web-based, policy, billing, claims and reinsurance insurance administration system.

Bradenton, FL —MutualAid eXchange has chosen The Stingray System for the processing of their Personal and Commercial lines of business. The Stingray System, from Maximum Processing, will be utilized for policy, billing and claims processing for their United States and Canadian business.

"We were very impressed with the functionality of the system. It will allow us to improve all our policy, billing and claims functions. This includes imaging and workflow, as well as agent and customer portals," said Paul Heacock, CIO of MutualAid eXchange. "The Stingray System will help us improve the delivery of our products and services, allowing us to better react to the changing marketplace and compete more effectively."

"Utilizing interfaces such as e2Value, credit card, imaging and other third party services," explained Sean Pitcher, President & CEO of Maximum Processing, "they will be able to provide real time purchasing capabilities to their agents and customers while improving the efficiency of their underwriting. Additionally, the automation will allow the underwriters more time to focus on the areas of the business which require it."

Heacock said they are impressed by the knowledge and depth of experience that Maximum Processing brings and the responsiveness to our needs. The first line of business is expected to be delivered for user test within a couple of months.

The Stingray System is a policy, billing, claims and reinsurance administration system which provides workflow, imaging, many third party interfaces (e.g. Credit Card, General Ledger, Comparative Raters, CLUE, bureau stat reporting and others) . It comes with consumer and agent portals as well a full point of sale system.
