

Kentucky National Insurance Selects The Stingray System from Maximum Processing.

Kentucky National Insurance selects the web-based, policy, billing, claims and reinsurance insurance administration system.

Bradenton, FL — Kentucky National Insurance Company has chosen The Stingray System for the processing of all of their lines of business. The Stingray System, from Maximum Processing, will be utilized for policy, billing, claims, imaging and reinsurance processing.

“We were impressed by the Stingray System and all the features and functions that are offered. We were further impressed during our discovery process with the staff and their knowledge and understanding of our business and our needs.” said David McMullen, President of Kentucky National Insurance. “The Stingray System will allow us to offer a richer environment via the web and improve the service to our agents and customers while improving the productivity and efficiency of our staff. ”

"Utilizing interfaces such as IVANS, for downloading to agency systems and other third party services," explained Sean Pitcher, President & CEO of Maximum Processing, "they will be able to provide real time purchasing capabilities to their agents and customers while gaining the ability to react to the marketplace quickly. "

McMullen said they are very impressed with the experience that the Maximum Processing team brings and their focus on providing a highly configurable solution that meets their needs and most importantly their ability to deliver.

The Stingray System is a policy, billing, claims and reinsurance administration system which provides workflow, imaging, many third party interfaces (e.g. Credit Card, General Ledger, Comparative Raters, CLUE, MVR, 4SightBI, bureau stat reporting and others) . It comes with consumer and agent portals as well a full point of sale system.
